Description

Beautiful aircraft with very low hours, always hangared and well maintained. Very comfortable with two tone cream and beige leather seats; excellent tourer. Top of the range with all options fitted.

It's a great short strip performer and a wonderful tourer too. It's well equipped, really easy to fly and has no nasty surprises in the handling department. It's spacious, quiet and exceptionally well built BY THE FACTORY with full service history. The aircraft is in the UK, ready to go and can be viewed any time. Reluctant sale, but I don't have the time to utilise her fully and you will get essentially, as good as new aircraft for a substantial saving over buying new.

Rotax 912 ULS
